- Pursuant to the Charter of Organization and Operation of Dong Duong Construction and Trading Joint Stock Company .
- Based on the actual situation of the Company

The Board of Directors reports to the General Meeting of Shareholders on the plan to transfer and sell part of the Company's investment assets on land in 2025, specifically as follows:

1. **Investment assets on land expected to be sold:** Assets are factories located in an area of 30,000 m2 for which the Company leases land and pays annual rent at the Industrial Cluster North of Van Dinh town, Ung Hoa district, Hanoi city, including:

Factory 1: area 5,908.70 m2

Factory 2: area 2,202.30 m2

Transfer price: at least 2 (two) times the asset value according to accounting book value at December 31, 2024.

Purpose of transfer: The Board of Directors finds that the Company's wood and wooden furniture production and trading activities with the current factory area are being used inefficiently, causing waste of the Company's resources. The financial resources obtained from the sale of a part of the above factory will reduce the Company's financial debt, and at the same time restructure the production workforce to be lean and reasonable, although on the basis of maximizing the existing production lines, it can still meet the production volume and supply the Company's current products. At the same time, the

Company can use additional financial resources to open new business areas to create more value for the Company.

2. Authorization to the Board of Directors:

The Board of Directors respectfully proposes that the General Meeting of Shareholders approve the authorization for the Board of Directors to carry out the search for partners, decide on the time, transfer price, payment method, sign the Contract and carry out all legal procedures related to the transfer of the above assets in accordance with the policy of the General Meeting of Shareholders and the provisions of law.
